Updated on The Parent Channel: The Immunization Report

Health care professionals can support new parents in making informed decisions about vaccines by ensuring evidence-based information is provided, and directing new parents to credible sources to access further information.

The Parent Channel updated title: *The Immunization Report* informs on effects of diseases that immunizations protect against, and addresses common concerns.

The Parent Channel Easy as 1-2-3

1. Turn it on for patients
2. Follow up to answer questions
3. Document program watched
